Community

Did you see us at the Pennsauken Fall Festival on October 12, 2014? As part of our "Dnt Txt Drv" campaign, we sponsored a booth at the first annual festival. We gave away custom bags, cups, food and other useful material. We appreciate serving our local community. Let us know if we can provide a free Distracted driving presentation to your school or group.

Social Security Disability

If a person has a disability that has kept them out of work or is expected to keep them out of work for 12 months or more they could be eligible for disability benefits.

Personal Injuries

We would like to take the time to tell you a bit about the legal service the law firm provides. We handle all types of situations where someone is hurt or injured because of someone else's negligence. Common examples are:

- Automobile collisions
- Slip and falls
- Assault, battery, and alcohol related cases
- Trucking and motorcycle accidents

Whenever a person or company does not use care in their actions, their carelessness, or negligence, can cause harm to another person. This includes a failure to pay attention while driving, failure to keep property or a business in a safe condition, and acting in a manner that hurts another person physically.

We represent people in both New Jersey and Pennsylvania, and will travel to you for your convenience. All consultations are free.

Medical and Nursing Home Injuries

If you or a loved one has been hurt by a medical error, or neglect in a long term care or nursing home facility, we will consult with you and explain your rights. Nursing home residents are entitled to proper medical and nutritional care. Residents are protected under the law. Residents can develop bed sores and suffer falls due to lack of care.

Workers' Compensation

Our office represents injured workers in New Jersey and Pennsylvania. In New Jersey, if a worker is hurt on the job he is entitled to medical, temporary, and permanent disability benefits. In Pennsylvania, a worker is entitled to medical and temporary benefits and sometimes payment for continuing wage loss. In both states it does not matter whose fault the accident is. Workers are entitled to benefits regardless of fault.

If you are hurt on the job feel free to call us to discuss your legal rights.
